

CNC WIRE STRAIGHTENING & CUTTING MACHINE

MODELSTAR-5CNC | 2mmto5mm

FULLY SERVO CONTROLLED

SERVO FEEDING | SERVO CUTTING | PLC + HMI

TECHNICAL SPECIFICATIONS

STAR-5CNC / CNC Automatic Wire Straightening & Cutting Machine

Model No.	STAR-5CNC
Wire diameter range	2 mm to 5 mm
Maximum operating speed	30 to 40 meter/minute
Total power capacity	3.5 kW
Feeding system	Servo motor controlled
Cutting system	Servo motor controlled
Automation	Fully servo controlled
Machine control	PLC based
Operator interface	HMI

SYSTEM OVERVIEW

Servo feeding provides programmable wire movement; servo cutting performs the cutting cycle.
PLC coordinates machine operation, while the HMI provides the operator control interface.
